

Anass EZZINE

Full Stack Software Engineer Internship

PROFIL

I am currently a fourth-year computer engineering student in a work-study program, actively seeking a 3-month internship abroad starting in May to gain international experience and further develop my technical skills

EDUCATION

- **Computer Engineering, Polytechnique University of Marseille**
2022 – 2026
- **Bachelor's Degree in Computer Science, Aix-Marseille University**
2020 – 2022
- **High School Diploma, Lycée Hassan Dakhil**
2017 – 2020

PROJETS

- **Medical Prescription Management Platform**
Utilized Angular for the frontend, MongoDB for database management, and JavaScript, HTML, and CSS for the user interface.
- **Client Management Application**
Developed with Node.js and Express. Used HTML, CSS, and JavaScript for the user interface.
- **Database Management Application for IT History**
Created using Python for both frontend and backend, with MySQL integration for database management.
- **RPG Game in Java**
Developed a role-playing game using native Java.
- **Java Swing Project with MySQL Database**
Managed a software development company's operations with a MySQL database, utilizing Java Swing for the user interface.
